Subject: VDGIF Approves Eagle Consult Plans

Mike,

Per below, VDGIF is satisfied with project plans to work around the eagle nests during the dredging. As they recommend, we are also coordinating this effort with USFWS through our upcoming application for an Eagle Take (Disturbance) Permit.

Thank you for keeping me informed during this phase of the effort and for all the project planning and commitments to protect the site eagles.

Please forward as you feel appropriate.

Hi Glenn,

Sorry for the delay. I didn't want to call back until I had reviewed the information. Based on my review of the information, it appears you are in compliance with state law and working in compliance with the national guidelines. We recommend coordination with the USFWS just as you have done with us.

Thanks, Amy
